Experience

Federal University of Santa Catarina (UFSC), Associate Professor of Mechanical Engineering
 Florianópolis, SC, Brazil
 2026 – present
 1 year

- Department of Mechanical Engineering (EMC)
- Affiliated with GRANTE and LEBm research groups

Education

Ph.D. Federal University of Santa Catarina (UFSC), Mechanical Engineering
 Florianópolis, SC, Brazil
 2022 – 2026

- Supervisor: Prof. DSc. Eduardo A. Fancello
- Thesis: Multiscale modeling in hydrated porous media: Second-order computational homogenization and micromechanics of aortic dissection

Visiting Ph.D. Student Institute of Biomechanics, TU Graz, Biomedical Engineering
 Graz, Austria
 2023 – 2024

- Supervisor: Prof. DSc. Gerhard A. Holzapfel

M.Sc. Federal University of Santa Catarina (UFSC), Mechanical Engineering
 Florianópolis, SC, Brazil
 2019 – 2021

- Supervisor: Prof. DSc. Eduardo A. Fancello
- Thesis: Algorithms and solution strategies in poroviscoelasticity: a study applied to the modelling of soft biological tissues subjected to large deformations

B.Sc. Santa Catarina State University (UDESC), Mechanical Engineering
 Joinville, SC, Brazil
 2014 – 2019

- Thesis: Numerical modelling to determine the effective properties of smart composite materials considering imperfect contact

Awards

Best Graduate Student Paper Award 2024

- Awarded by the Brazilian Society of Mechanical Sciences and Engineering
- 9th International Symposium on Solid Mechanics, Brazil

Ernst Macht Worldwide Scholarship 2023

- Awarded by the Ernst Macht Foundation, Austria

Ph.D. Scholarship 2022

- Awarded by CAPES (Coordination for the Improvement of Higher Education Personnel), Brazil

M.Sc. Scholarship 2019

- Awarded by CAPES (Coordination for the Improvement of Higher Education Personnel), Brazil

Languages

Portuguese: Native speaker

English: Fluent

Spanish: Intermediate
